

CLOUDCOVER 365:

Self-service development roadmap.

We're committed to helping you take control of your Microsoft 365 data, which is why our developers are continually expanding the functionality and self-service features available within CloudCover 365. If you have any questions or specific feature requests, please contact our development team through the CloudCover 365 website.

Planned updates and feature roadmap for Q1 2021:	Available through the CloudCover 365 online self-service portal	Available through the CloudCover 365 support team	Exclusive to the CloudCover 365 service
