

# CLOUDCOVER 365:

## Features and development road map.

We're committed to helping you take control of your Microsoft 365 data, which is why our developers are continually expanding the functionality and self-service features available within CloudCover 365. If you have any questions or specific feature requests, please contact our development team through the CloudCover 365 website.

<b>Planned updates and feature roadmap for Q4 2022:</b>	<b>Available through the CloudCover 365 online self-service portal</b>	<b>Available through the CloudCover 365 support team</b>	<b>Exclusive to the CloudCover 365 service</b>
